

## Veröffentlichungen

1. Baumann MA, Rath B, Fischer JH, Iffland R (2000). The permeability of dental procedure and examination gloves by an alcohol based disinfectant. *Dent Mater* 16:139-144
2. Schneider BT, Baumann MA, Watanabe LG, Marshall GW (2000). Dentin shear bond strength of compomers and composites. *Dent Mater* 16:15-19
3. Appel TR, Baumann MA (2002). Solid-state nuclear magnetic resonance microscopy demonstrating human dental anatomy. *Oral Surg Oral Med Oral Pathol* 94:256-261
4. Baumann MA, Korkmaz Y, Bloch W, Schmidt A, Addicks K, Schröder H (2003). Localization of neuropeptide galanin in nerve fibers of the rat molar dentin-pulp complex. *Eur J Oral Sci* 111:175-178
5. Korkmaz Y, Bloch W, Behrends S, Schröder H, Addicks K, Baumann MA (2004). NO-cGMP Signaling Molecules in the Epithelial Cells of Malassez. *Eur J Oral Sci* 112: 55-60
6. Korkmaz Y, Baumann MA, Schröder H, Behrends S, Addicks K, Bloch W (2004). Localization of the NOcGMP Signal Pathway Molecules, NOS III-Phosphorylation sites, ERK ½ ans Akt/PKB in Osteoclasts. *J Perio* 75: 1119-1125
7. Korkmaz Y, Bloch W, Addicks K, Baumann MA, Raab WHM (2004). Endothelial nitric oxide synthase phosphorylated at Ser116 is localized in nerve fibers of the rat glandulae palatinae. *Neurosci Lett* 363: 54-57
8. Korkmaz Y, Baumann MA, Schröder H, Behrends S, Addicks K, Raab WH, Bloch W (2005). Localization of No-cGMP signaling molecules in cells of the rat molar dentin-pulp complex. *J Dent Res* 84(7): 618-623.
9. Korkmaz Y, Bloch W, Addicks K, Baumann MA, Raab WHM (2005). The basal phosphorylation sites of eNOS at serine (Ser)1177, Ser116, and (Thr) 495 in rat molar epithelial rests of Malassez. *J Periodontol* 76: 1513-1519.
10. Korkmaz Y, Bloch W, Steinritz D, Baumann MA, Addikcs K, Schneider K, Raab WHM (2006). Bradykinin mediates phosphorylation of eNOS in odontoblasts. *J Dent Res* 85: 536-541.
11. Peters OA, Roehlike J, Baumann MA (2007) Effect of immersion in sodium hypochlorite on torque and fatigue resistance of nickel-titanium instruments. *J Endod* 33: in press.
